

### USE AND CARE GUIDE

#### OUTDOOR WIRELESS REMOTE CONTROL

#### Safety Information

##### Federal Communications Commission Interference Statement

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

1

#### Installation Instructions

##### Installing the remote outdoors

**WARNING:** The device must be mounted in a vertical position with the receptacle facing downward and with the receptacle at least 2 ft. above the ground level to prevent water immersion.

- Mount the receiver onto a wall near a grounded electrical outlet.
- Insert a nail or screw (not included) into the mounting surface. Nail or screw head must extend at least 3/16 in. out from the wall. Hang the receiver from the slot on back of the unit onto the nail or screw. Plug the power supply cord of the receiver into the outlet.
- Plug the device cord into the receptacle at the bottom of the receiver.

#### Operating Instructions

##### 1 Using the remote control

- Install the battery observing the positive (+) side up as indicated inside the battery compartment.
- Never throw batteries into a fire. Do not expose batteries to fire or other heat sources.
- Battery contains mercury. Do not put in trash. Recycle or manage as hazardous waste.

#### Maintenance

##### 2 Replacing the battery

- Remove the battery compartment cover away from the remote (see diagram)
- Remove the old battery and place a new Type 3V (CR2032) lithium battery into the battery compartment.
- Ensure the battery is installed correctly with the positive (+) side up.
- Replace the battery compartment cover.
- Always purchase the correct size and grade of battery most suitable for the intended use.

3

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

#### RATINGS

125 VAC, 60 Hz	1000 W Tungsten
13 A General Use	500 VA electronic ballast. 1/2 hp.
13 A Resistive	120 Vac, 60Hz, 8.3A ballast.

RECEIVER MODEL: RC-026  
TRANSMITTER MODEL: TR-026A  
FCC ID: PAGTR-026A

#### Product Description

**NOTE:** This product is suitable for indoor and outdoor locations.

- 1. Power indicator light:**  
The power indicator light indicates that the receiver is on.
- 2. Outlets:**  
The outlet located on the bottom of the receiver. Plug the light or device to be controlled by the remote into the outlet.
- 3. Remote control:**
  - ON: When the on button is pressed, it will override the receiver's current program to on function.
  - OFF: When the off button is pressed, it will override the receiver's current program to off function.
  - Remote indicator light: The LED light indicates that the ON or OFF button is being pressed.

2

**WARNING:** Do not ingest the battery, Chemical Burn Hazard (The remote control supplied with) This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

#### Troubleshooting

Problem	Solution
The lights do not turn on and off via remote control.	Confirm remote operation after replacing batteries.
The lights do not turn on, even when the power indicator light indicates that the receiver is on.	Ensure the lights are functional by plugging them directly into an outlet.
	Be sure that the lights are in the "ON" position if they have their own switch.
	Be sure that the outlet that the receiver is plugged into is active.
